Equine Dentistry**

About our Clinicians & Presenters

Sarah Adams

Sarah is an A graduate of Salmon Falls Pony Club, and has been active both in the USPC Horse Management & NE program for several years. She has a lovely mare who had a rough '08 season - but is looking forward to a fun-filled '09 eventing season. Sarah will tell you that she has the "best job in the world", working with seniors in various retirement communities that she helps manage, because no two days are ever the same...and because it allows her to ride! One of Sarah's greatest strengths is her ability to help candidates decipher what they need to work on.

Karen Marcotte

Karen is a graduate of Rockingham Pony Club and now the DC. She is a National Examiner, Chief Horse Management Judge and has been on the Horse Management Committee.

Karen teaches private lessons, pony club lessons, camps and preps. She is currently working with a group to write an Instructor handbook for USPC.

Michelle Singer, VMD

Michelle is a graduate of the University of Pennsylvania School of Veterinary Medicine. After practicing general ambulatory medicine in Connecticut, she is now specializing exclusively in advanced equine dentistry. Dr. Singer has undergone advanced training in all aspects of equine dentistry including intra-oral radiography, restorations, endodontic and orthodontics. She is an associate at Mid-Hudson Veterinary Practice. You will find her to be passionate and enthusiastic about her field and especially kind to your horse.
